

# The Neutralizer

Mobile pH Balancing for the Construction Industry

Treats and Balances Highly Caustic Wastewater  
Small Footprint  
Uses CO<sub>2</sub> in place of Hazardous Chemicals  
Fully Automated  
Continuous In-line Process  
Low Operating Costs  
Rugged and Mobile Construction  
Hire or Purchase

Caustic wash-out on construction sites is restricted by the Environment Agency or Water Companies, unless it is neutralised before entering the sewer or watercourse.

Smart Storm's NeutraliZer treats caustic waste using CO<sub>2</sub> in place of hazardous acids to ensure the waste water discharge is always at a neutral pH.

Using in-line mixing technology, the fully automated system requires little operator interaction other than changing gas bottles. Its rugged build, small footprint and skid mount allows for easy relocation in busy construction sites.

<b>SPECIFICATION:</b>	Weight:	800 kg
	Length:	2875 mm
	Width:	1000 mm
	Height:	1300 mm

**CAPACITY:** Single pump feed - Max. Flow 5.5 l/s (20m<sup>3</sup>/hour)

**GAS SUPPLY:** Bottled CO<sub>2</sub> or approved storage tank

**ELECTRICAL FEED:** 110V as standard - 240V optional
