Mobile CO₂ pH Balancing for the Construction Industry

THE NEUTRALIZER

APPLICATIONS

- Concrete paving and brick manufacturing
- Chemical and pharmaceutical Industries
- Construction and building sites
- Concrete wagon washout
- Emergency pH treatment
- Mortar bucket washout
- Demolition sites
- Wastewater
- Quarrying
- Mining

FEATURES

- User friendly
- Skid mounted
- Green credentials
- Rugged construction
- Status alarm beacons
- Integral pH and Flow meters
- Remote Cloud Based IOT Monitoring

SPECIFICATION

- Weight: 850kg
- Length: 2775mm
- Width: 1000mm
- Height: 1650mm

ELECTRICAL FEED

- 110V standard
- 240V optional

CAPACITY

- Gas Supply: Bottled CO₂ or approved storage tank (Vapour withdrawal only)
- Single Pump feed: Max flow up to 50m³/hr
